1. Number of user accounts, and projects/contests posted in the Freelancer marketplace as at 31 December 2015. User, project and contest data includes all users and projects from acquired marketplaces. Prior to 2009, all data is from acquired marketplaces. Total Projects and Contests Posted was redefined in January 2016 to Total Jobs Posted (filtered). Jobs Posted (Filtered) is defined as the sum of Total Posted Projects and Total Posted Contests, filtered for spam, advertising, test projects, unawardable or otherwise projects that are deemed bad and unable to be fulfilled. Includes Escrow.com unique users.
Freelancer continues to break new records and accelerate its growth trajectory

• Key milestones of ~20 million users and >9 million jobs posted.

• Passed US$3.0 billion of all time posted project and contest value in the core business and US$2.975 billion of all time transaction value in Escrow.com.

• Acceleration in the growth of total jobs posted (filtered)¹
  – added 1.4 million job postings, compared to 1.0 million in 1H15 (up 40% on pcp).

• Strengthening marketplace dynamics
  – the widest range at the lowest cost – continuing to see the marketplace benefits of a reduced minimum project size.
  – average project size of US$164 in 1H16 (down 4.1% from 1H15) continuing to drive greater project volumes.

• Strategic focus continues to remain on increasing revenue growth through conversion optimisation and marketplace efficiency.

• **Messaging** has seen a 48% year-on-year increase in active threads, and launched audio and video calls.
Escrow.com highlights during 1H16

The Escrow.com team has made major progress in the re-architecture of the legacy Escrow.com platform for growth.

- **Record key metrics in 1H16**: added 40,679 users (up 18.7% on pcp) and 30,372 transactions (up 20% on pcp).

- **Operations**: secured lease for new San Francisco head office (moving from Southern California). Addition of support teams in three more locations (Vancouver, Sydney, Manila). Addition of a processing support team in Sydney. Extension of support hours and new offering of multilingual support. Rollout of support quality assurance globally.

- **Infrastructure**: Migration of technical stack to cloud hosted AWS (Amazon Web Services) and away from legacy infrastructure, rebuilt trust accounting system (about to be deployed).

- **Engineering**: Deployment of new public facing website, redevelopment of automated API interface for partners and affiliates.

- **Management**: Hired Danny Raja as Vice President of Sales (formerly with Box and Yammer).

Escrow.com has completed the majority of technical work moving the infrastructure from legacy co-location to the Amazon EC2 cloud.

- Record 1H16 Net Revenue of $26.2m, up 56% on 1H15
  - Freelancer core contribution: $21.8m, up 30% on 1H15
  - Escrow.com contribution: $4.3m (up 18% on 1H15 in constant USD terms)

- Key expense analysis
  - employee expenses in line with headcount growth and step-up post acquisition of Escrow.com and new Escrow.com hires
  - administrative expenses including hosting and cloud provider costs, growing at a slower rate than revenue
  - step up in marketing costs occurred mostly in 2H15 (2H15 $4.5m, predominantly search engine and other attributable marketing)
  - occupancy costs growing within current leases, noting the addition of SoCal Escrow.com office, and going forward relocation of that office to San Francisco (resulting in ~30% less rental expense for Escrow.com)

- Other key notes:
  - reduction in tax benefit due to Escrow.com being domiciled and profitable on a segment basis in the United States, paying taxes even when group is at an NPAT loss position

\(^1\) Exclusive of 1H16 non-cash share based payments expense of $665k (1H15 $466k).

Outlook statement for the full year

FY16 will be an exceptional year for the Company with a full year contribution from Escrow.com

• Freelancer’s marketplace business is acyclical. The global financial crisis led to the original emergence of the online crowdsourcing and freelancing industries.
  – Employers looked online to hire freelancers rather than fulltime staff
  – Workers looked to the Internet to find new sources of employment

• Freelancer is continuing its strong growth, with record net revenue, gross volumes, registered users and posted projects in 1H16.

• Freelancer’s growth is accelerating and it is at an inflection point in terms of profitability.

• Freelancer is strongly operating cash flow positive and also operating EBITDA positive, reducing operating risk while maintaining a unique exposure to a deflationary environment.
Unique investment thematics

Freelancer Limited (ASX:FLN) is a unique exposure to:

- The on-demand and crowdsourced economy
- Rapidly increasing internet penetration of emerging markets
- The rise of online education
- Rising sophistication in emerging markets labour
- Software & mobile eating the world
- Structural imbalances in global labour markets
- Thrives in deflationary environment (the first GFC launched the industry)
- Massive market — up to $5 trillion TAM (5 billion people live on $10/day or less)
- Fintech & transition of global commerce to online (through Escrow.com)
- Global Income (>95% of revenue is outside Australia: USD, GBP, EUR, CAD, etc.)

Software is eating the world

“We are in the middle of a dramatic and broad technological and economic shift in which software companies are poised to take over large swathes of the economy”¹

- Every industry is being disrupted rapidly, and becoming dominated by software companies
- White collar job functions are all headed to software, and moving into the cloud

The world is repeating itself 20 years later

Car Purchase Scam

I have become suspicious about a buyer for our car we had for sale on eBay ‘Jodie Williams’ is the email name requesting that the sale only be undertaken through PayPal and that a courier would collect the car. They have asked no details about the car other than agreeing to pay the full price. Having become suspicious I searched the internet and found a few threads relating to this person ‘wjodie401’. I think it is part of the same scam others have mentioned, so please beware.

Escrow.com is the only licensed, bonded & audited secure online solution that protects both the buyer and the seller with a simple, 5-step trust process.

1. **Buyer & seller agree to terms**
   Both parties agree to terms of the transaction, which includes a description of the merchandise, sale price, number of days for the buyer's inspection, and any shipping information.

2. **Buyer pays Escrow.com**
   The buyer submits funds via available payment options. Escrow.com verifies the payment. Processing time varies by payment method.

3. **Seller ships merchandise**
   Upon payment verification, the seller is authorized to ship merchandise to the buyer and submit tracking information. Escrow.com verifies that the buyer receives the shipment.

4. **Buyer accepts the merchandise**
   The buyer has set a number of days for merchandise inspection and the option to accept or reject the merchandise.

5. **Escrow.com pays the seller**
   Upon buyer's approval of merchandise or expiration of inspection period, Escrow.com pays the seller by the method selected by the seller. The transaction is then complete.
Escrow.com secures transactions from $100 to $10,000,000+

Estimated demand for Web Design services alone

Freelancer’s global web design revenue opportunity estimated as $2.7 billion per annum ($10.5b GPV)

- Freelancer’s estimated global web design revenue opportunity at c.$2.7 billion ($10.5b GPV)

- This is as a replacement of existing business only and there is potential upside from opening up of new demand from lower cost labour services globally
  - e.g. for the first time, a café can get a website for c.$100

- Indicative calculation:
  - web design in the US alone is US$20 billion + industry\(^1\)
  - wages constitute US$12 billion of this
  - more than 50% of software engineering jobs can be outsourced at 30% of US wages\(^2\)
  - US$1.74 billion in wages outsourced @ 26% take rate
    = c.A$620 million revenue opportunity for Freelancer in the US (Total Available Market)\(^4\)
  - there are 28 million small businesses in the US, but at least 96 million more in other mid-high income OECD countries\(^3\)
  - from this we estimate the global opportunity is (96+28)/28 = c.4.4x larger than the US market

---

3. Based on 28m SMEs in the US, 96m MSMEs outside the US in mid-high income OECD countries.
4. Based on AUD/USD exchange rate of 0.73.
Estimated demand from Small Businesses

Global small business revenue opportunity estimated as $31.9 billion per annum (571 million projects, $122 billion GPV)

- There are about 28 million small businesses in the US
  - 22 million of these are informal non-employers (yet generate >$1 trillion per annum in revenue)

- US job posters who posted more than one project posted on average 3.13 projects in 2013
  - then this same cohort posted 4.60 projects in 2014
  - then this same cohort posted 5.64 projects in 2015

- Average project size in 1H15 was US$159 (A$217) generating revenue of A$56 to Freelancer (26% take rate)
  - Implies A$7.2 billion TAM (A$28 billion GPV, 129 million projects) from US SMEs

- But there are 420 – 510 million micro, small and medium enterprises (MSMEs) globally

- 96 million are formal employer MSMEs outside the US in mid-high income nations
  - Additional A$24.7 billion TAM (A$95 billion GPV, 442 million projects)

- Estimated global TAM from MSME market of c.$31.9 billion ($122 billion GPV, 571 million projects)

- This excludes another 100m+ informal (unregistered) MSMEs in high income nations globally including non-employer firms, sole proprietors and partnerships which could add materially to Freelancer’s revenue opportunities

2. Based on Freelancer internal statistics. Average paid value of completed project was A$194 in 1H15 (based on AUD/USD exchange rate of 0.73 converted spot at 29 July 2015).
3. McKinsey Global Institute, “Two trillion and counting: Assessing the credit gap for micro, small, and medium-size enterprises in the developing world” (October, 2010).
Estimated demand from Consumers

Engaged active users on major product marketplaces are low hanging fruit for online services. Major product marketplaces as a proxy of consumer demand indicates TAM of c.$54 billion (900 million projects, $200 billion GPV)

291 million active consumers on average across eBay, Amazon and Alibaba

162 million active consumer buyers on eBay (sellers are SMEs)

Taking 162m buyers as consumer proxy

5.6 projects / user A$219 / project 27% take rate

GPV of c.$200 billion
Global Total Available Market (TAM) c.$54 billion (c.900m projects)

Estimated supply of professional labour in the developing world

370 million people, or 10% of the 3.7 billion working age population in the developing world have a tertiary qualification

- 2010 global working age population: 3.7 billion, labour force: 2.9 billion
- Of the 3.7 billion working age in the developing world in 2010:
  - 1.7 billion (46%) have a secondary education
  - 370 million (10%) have a tertiary education
- There are 220 million people with a tertiary degree between India, China, Brazil, Philippines, Malaysia, Indonesia, Egypt, Sri Lanka and Nigeria
- In the Philippines, tertiary education rose from 9% to 22% (13m) 1980-2010
  - Brazil, China, India @ 7 to 9%, yet produce c.5m STEM grads per annum
- c.5 billion people to join the Internet over next decade that earn <$10/day
- They have very little assets however are educated and can sell their services
- Freelancer.com is the first stop on the Internet for these people to raise their wages from $10/day to $10/hour +

1. McKinsey Global Institute: The World at Work: Jobs, Pay and Skills for 3.5 Billion People (June 2012)
3. Accenture Institute for High Performance: Where will all the STEM talent come from? (May 2012)
Estimated demand from Local Jobs

Freelancer’s expansion into 100 categories of Local Jobs expands the total addressable market by up to $800 billion

- Online services is already a huge market, with enormous future potential
  - McKinsey Global Institute has estimated that “160 million jobs, or about 11% of the projected 1.46 billion services jobs worldwide, could in theory be carried out remotely, barring any constraints in supply”

- In the US alone, the temporary labour market is estimated to be on the order of $100 billion
  - MBO Partners also found that in 2013 in the US there were 17.7 million independent workers
  - these generated $1.2 trillion in total income per annum
  - Angie’s List estimates the home services industry, which includes electricians, plumbers, dog walkers and other manual labour, alone is worth $400 billion per annum
  - others put it at $800 billion per annum
