Freelancer Limited
1H18 Half Year Results Presentation

Video presentation of these results available at http://frln.cr/DbDzke

Matt Barrie
Chief Executive Officer
FREELANCER.COM

#1 Online Services Marketplace
Over US$3 billion in jobs posted

ESCROW.COM

#1 for Secure Online Payments
Over US$3.5 billion in transactions
1H18 Freelancer Group Results

- All-time record half year GPV AU$364m, up 25% on pcp
  - Freelancer GMV US$48m, up 8% on pcp in USD c/c
  - Escrow.com GPV US$215, up 37% on pcp (2Q18/1Q18 US$120m up 25%)
- Net Revenue AU$24.7m, down 6%
  - Freelancer: $21.2m, down 8% (cash receipts $21.2 down 7%)
  - Escrow.com: $3.5m, up 11% (cash receipts $3.7m up 22%)
- Gross margin >85.4%
- Positive operating cash flow $0.4m
- Operating EBITDA ($0.4m)
- Operating NPAT ($0.8m)
- Cash & cash equivalents at 33.3 million (30 Jun), up 4% on 31 Dec 17
Freelancer.com Highlights

- 1H18 all-time record GMV of $62m (up 6% on pcp)
- Enterprise closing first two customers by end August
- Acquired freelancers.net (70k users in UK, 20 year history)
- GDPR took engineering time, compliance achieved by go-live date
- Memberships continues to be a drag
  - # of users on memberships at all time high, but lower value plans
- Location tracking for projects shipped
  - facilitates building uber and grubhub-like apps using the API
- Freelancer was EBITDA positive on a monthly basis in last 3 of 4 months
- Freelancer revenue should be positive year on year from July 18
Escrow.com Highlights

- AU$281 million half for GPV up 34% on pcp (37% USD c/c)
- AU$158 million 2Q18 GPV up 41% on pcp (42% USD c/c)
- Record US$182 million half for GPV ex-China (up 37% USD c/c)

- Record US$100,000,000 quarter ex-China ($101m vs 4Q15 $89m)
- First US$10,000,000 GPV day for Escrow.com in 2Q18
- First US$100,000 revenue day for Escrow.com in 2Q18

- All new integrations are on the Escrow API & transactions are flowing
- AFSL granted, AUD in final stages of being launched
- Escrow was EBITDA positive on a monthly basis in last 3 of 4 months
Escrow.com quarterly GPV (US$)

1H18 GPV AU$281 million (up 34% YoY, 37% USD c/c), record half and quarter ex-China
1H18 net revenue of $24.7m (down 6% on pcp)

- Freelancer revenue: $21.2m (down 8%)
- Escrow revenue: $3.5m (up 11%)
  - Difference with cash receipts is DNH (lease to buy) & large xacts that didn’t close before June 30, will flow into July

Cash receipts of $24.9m, down 3.2% on pcp
- Freelancer receipts: $21.2m (down 6.6%)
- Escrow receipts: $3.7m (up 22%)

Revenue growth adversely impacted by:
- Drop in core desktop funnel driven by introduction of “1-click” funnel- has been reverted but has held revenue back yoy
- Memberships
- Initiatives to improve quality and NPS at expense of short term revenue impacts
- FX drag of approximately 2%

Freelancer revenue should be positive year on year from July 2018

- Consistently high gross margins, ~86% since FY11
Gross Payment Volume (GPV) 1H18

All-time record half year GPV $364m, up 25% on pcp, 1H18 all-time record Freelancer GMV, 2Q18 Escrow GPV ex-China

Group
- 1H18 all-time record GPV $364m (up 25% on pcp)

Freelancer
- 1H18 all-time record GMV of $62m (up 6% on pcp)
- 2Q18 all-time record GMV of $32m (up 6% on pcp)

Escrow
- AU$281 million half for GPV up 34% on pcp (37% USD c/c)
- AU$158 million 2Q18 GPV up 41% on pcp (42% USD c/c)
- 1H18 all-time record GPV of US$182 million ex-China (up 37% USD c/c)
- First US$100,000,000 quarter ex-China ($101m vs 4Q15 $89m)
- First US$10,000,000 GPV day for Escrow.com in 2Q18
- First US$100,000 revenue day for Escrow.com in 2Q18

Marketplace take rate at 13%
- Commissions have remained unchanged
- 3% for employers and 10% for freelancers

1. Gross Payment Volume (GPV) is calculated as the total payments to Freelancer or Escrow users for products and services transacted through the Freelancer or Escrow websites (GMV) plus net Revenue. Based on Freelancer’s unaudited management accounts which have not been subject to an auditors review.
2. Take rate for the Marketplace segment is 3% employer commission and 10% freelancer commission, which has not changed since 2010.
3. Core Freelancer GPV of AS$82.9m. Escrow 1H18 GPV of US$216m, average AUDUSD FX of 0.7691= AS$280.7m
Cash & eq. at period end (30 June 2018) $33.3m, up 4.4% on FY17 (31 Dec 17)

1H18 operating cash flow positive $0.4m

1H18 upward revaluation in cash balances due to ~5% depreciation in AUD/USD
Freelancer.com

Freelancer Gross Marketplace Volume up 8% in 1H18 on pcp in USD constant currency*

Freelancer.com GMV

Milestones released (US$) last 5 years

* Gross Marketplace Volume (GMV) is a measure of total payments out of the system, i.e. to freelancers
Freelancer.com

Strong growth in volume across hourly, mobile and recruiter projects

Hourly, recruiter and mobile projects continue to grow strongly

- Hourly GMV - up 53% in 2Q18 on pcp
- Recruiter GMV - up 54% in 2Q18 on pcp
- Mobile GMV - up 32% in 2Q18 on pcp

Membership continues to be a major drag on revenue

- However the count of active paid memberships at all time high (however on much lower plans)
## Summary profit & loss statement 1H18

**Freelancer, Escrow EBITDA positive last 3 of 4 months**

- Freelancer, Escrow EBITDA positive last 3 of 4 months
- Consistent gross margins in 1H18
- 6% reduction in operating expenses vs pcp due to tight cost control on all major expense lines, which will provide operating leverage with rising revenue
- 433 FTEs at 1H18 (down 9% on FY17)

---

1. Operating earnings are exclusive of non-cash share based payments expense of $300k in 1Y18 and $532k in 1Y17.
2. Depreciation and amortisation expense of $299k in 1Y18 and $365k in 1H17.
## Summary balance sheet 1H18

Cash balances at AU$33.3m as at 30 Jun 2018 (up 4% from Dec 17)

Marketplace dynamics 1H18

“Every job, every country, every language, every currency, at any time”

- Over 1,000 job categories as diverse as Aerospace Engineering, Biotechnology, Sales, Manufacturing, Mechanical Engineering
- Complexity & sophistication growing each year
- Average completed project US$192 in 1H18

1. Based on the number of completed projects that were posted in 1H18.
2. Based on the value of project payments for projects that were posted in 1H18.
3. Average amount paid per awarded project
Revenue Model

Freelancer’s revenue is driven by users posting jobs – as a project or a contest

- For employers it’s **free** to post a project, **free** to review bids, **free** to talk and review samples
  - 3% project commissions paid by employers when a project is awarded and accepted
- For freelancers it’s **free** to view projects posted, **free** to bid on projects, **free** to talk to employers and provide samples of work
  - 10% project commissions paid by freelancers when a project is awarded and accepted
- Membership plans range from US$0.99 to US$59.95 a month, and provide additional features and benefits including increased bid limits, eligibility for preferred freelancer and high value project bidding.

Other value added services include project upgrades, crowdsourcing contests and upgrades, bid upgrades, transaction fees, certification fees and advertising.

Freelancer API

Use Cases // Managing a Project
These examples are intended to demonstrate how the API can be used to perform some common project management tasks as an employer working on a project. These examples assume that the employer has already created a project and received at least one bid from a freelancer.

Project Action | Upgrade
Once a project has been created a number of actions are available to the project owner via the Project Actions endpoint. For a full list of the possible actions which can be performed on a bid see the reference documentation for Project Actions.

One of the possible project actions is to apply one or more upgrades. For example if we need our project to be completed as quickly as possible we might want to add the urgent upgrade. To add the upgrade to our project we can make a request to the Project Actions endpoint passing `upgrade` to the `action` parameter and including `urgent` in the list of upgrades.

Request:
```bash
1. curl --request PUT
2. -u $https://www.freelancer.com/api/projects/0.1/projects/15339676/
3. --header 'content-type: application/json'
4. --header 'freelancer-oauth-v1: $oauth_access_token'
5. --data '{"action": "upgrade","upgrades": ["urgent"]}'
```

Response:
```json
1. {
2.   "request_id": "$44c3335b794ed5166b93ad9f8bbf1bbb",
3. }
```

Make an API call to the cloud workforce from your website, app or software

Freelancer Limited

ESCROW.COM
Inspect goods & services before releasing funds. No chargebacks, ever.

OVER $3,500,000,000 IN TRANSACTIONS SECURED SINCE 1999
Most **payments** innovation revolves around trying to buy a cup of coffee rather than selling anything of real **value**, like a car.
Escrow.com is used to secure a wide range of valuable transactions
Escrow.com secures transactions from $100 to $100,000,000 USD, EUR and AUD coming soon

2007 Robinson R44 securely sold through Escrow.com

Aerocruiser 1100 hovercraft securely sold through Escrow.com

Don Pedro houseboat securely sold through Escrow.com

Piper PA-23-250 Aztec F securely sold through Escrow.com

2012 Ferrari Scaglietti securely sold through Escrow.com

2004 Fountain 38 LX securely sold through Escrow.com
NOTE: SAMPLE OF TRANSACTIONS. THE PINK LINES INDICATE WHERE ESCROW TRANSACTIONS ARE BEING ORIGINATED BY BUYERS, AND THE BLUE LINES INDICATE WHERE TRANSACTIONS ARE BEING FULFILLED BY SELLERS. THICKER LINES INDICATE HIGHER VOLUME. WHITE DOTS INDICATE THE LOCATION OF ESCROW.COM’S USERS. ALL TIME DATA.
1. Buyer and seller agree to terms

2. Buyer pays Escrow.com

3. Seller ships merchandise

4. Buyer accepts the merchandise

5. Escrow.com pays the seller

Escrow.com

The only licensed, bonded & audited secure online solution that protects both the buyer and the seller with a simple 5-step trust process
Benefits of using Escrow.com

**Increase Trust**
Allow your customers to transact on e-commerce, marketplaces & classifieds sites with higher trust & safety greatly reducing fraud and with no chargebacks, ever.

**Increase Liquidity**
Physical inspection & acceptance happen on delivery, meaning valuable items can ship across state or country lines before the transaction completes, allowing you & your customers to expand beyond local to global markets safely.

**Increase Fulfillment**
Greater liquidity means sellers can access more buyers and buyers more sellers, resulting in better choice, pricing and increasing the probability of a successful transaction.

**Increase Support**
Your customers benefit from our world class transaction support. Experienced Escrow.com personnel can check shipping documentation, title, liens, and more.
Benefits of using Escrow.com

**Increase Compliance**
Escrow.com provides “compliance as a service” performing know your customer & anti-money laundering verification for high value transactions.

**Increase Insights**
Escrow.com “closes the loop” providing insight into what happens to your customers after they match on your site.

**Increase Conversion**
Campaigns and ad targeting can run more effectively. Know which listings are up to date and which are expired, creating a more relevant experience for your audience.

**Increase Revenue**
Revenue share is available for volume partners of $1 million per month or more.
The oldest, most trusted and licensed online escrow service in the world

Escrow.com has 46 financial services licenses granted or in-application (Hawaii, Nevada and the territories are the only US licenses remaining to file).

AFS Licence #501215 granted 15 May 2018
Cars, boats & airplanes are the perfect match for Escrow.com

Escrow.com solves trust problem
- Buyer & seller have to physically meet to transact
- Seller accepting cards has to risk charge backs
- Buyer using cash or wire has to risk delivering cash safely and trust the seller to deliver a vehicle in good standing

With Escrow.com one can ship across state lines, physical inspection and acceptance happen on delivery.

Value-add services include:
- Checking shipping documents
- Title collection
- Lienholder payoff
- Lease swap arrangements
- Post inspection sale adjustments
**Escrow.com** protects fine art, antiques, collectibles, watches, jewelry, gemstones from forgeries and fakes

Whether it’s by Warhol, Picasso or Hirst, we’ve sold it securely through Escrow.com

Shipping documentation is tracked and buyers receive & inspect the goods before accepting, opening up international markets and protecting against forgery and fakes

*Andy Warhol "Queen Elizabeth Suite", "Mao" and "John Wayne" securely sold through Escrow.com*
Industrial, network, construction & heavy equipment sold through Escrow.com

Transact beyond the local area to a global market

Sellers access more buyers, buyers access more sellers

Escrow.com makes it easier to agree to larger contracts

FANUC M710iC Industrial Robots securely sold through Escrow.com
**Escrow.com makes import / export simple**

No expensive & complicated letters of credit

Removes need to perform customer credit checks

Automates payments to international suppliers

Increases competitiveness of exporters through facilitating supplier & customer diversity

*Shipment of 28 Ford F250 securely sold through Escrow.com*
Service contracts including freelancing through Escrow.com

We support milestone payments against a time or deliverables schedule

Ensure your last invoice gets paid

*Medical solar system installation in Yuba City, CA securely sold through Escrow.com*
All these domains, and tens of thousands more sold through Escrow.com

Escrow.com where the Internet is bought and sold
The Escrow.com Platform API

With no minimum fee and priced as low as 0.89%, integrate Escrow.com into your website, mobile app, classified site or marketplace.

Beautiful Docs
Our step-by-step integration guides, code examples and centralized API reference make it simple to understand and easy to integrate so your can spend less time writing code.

Real-time Insights
Stay up to date on the progress of each of your transactions through our portal or use our webhooks to get real time granular updates on the progress of each transaction.

Versioning
Time to take control of your roadmap – your integration will work the same as it does today as it will tomorrow.

Developers First
With a new developer portal, interactive documentation, and real-time dashboards, we are putting developers first. We can’t wait to see what your build!
The Escrow.com Platform API is built by developers, for developers.
Simple Escrow.com API Integration

API Integration Checklist

To successfully integrate the API into your website, you'll need to complete your account setup as well as an integration setup. The whole process usually takes 1-2 weeks, depending on your availability to complete the technical tasks involved.

Integration Setup 0% complete

☐ Test transaction in sandbox environment 0% complete

☐ Create a sandbox account
To perform tests during the development phase of your integration you will need to have an account in our developer sandbox environment. This is hosted in www.escrowsandbox.com so you need to create a new account there.

☐ Create a sandbox API key
Each call to the Escrow API must be secured with an API key. You can create a sandbox API key after you log in to your sandbox account.

☐ Create a test transaction in sandbox
Use the create transaction endpoint to create your first test transaction in the sandbox environment.

☐ Agree to transaction and complete transaction flow
Use the API endpoints to progress through the various stages of the transaction in the sandbox environment until the transaction is complete.

☐ Check transaction status
You can check the status of a transaction at any point or use webhooks to receive updates when the status of a transaction changes.

☐ Create a production API key
Just like in the sandbox environment, production API calls must be secured with your API key. API keys are specific to an environment, so you may not use a sandbox API key in production or a production API key in sandbox.

☐ Create your first real transaction
Once you've created your first real transaction, your integration should be all set! Congratulations on completing your Escrow.com API integration successfully.
Shopify Exchange

Escrow.com is the only payment method for Shopify’s marketplace of stores.
Wingform uses Escrow.com to deliver a turnkey solution

Thanks to Escrow.com, if you find an aircraft on Wingform, you know the seller is serious about selling his aircraft
The Aurora Space Station uses Escrow.com to take deposits. Deposits are already flowing for the $10 million luxury Space Hotel by Orion Span (www.orionspan.com).

Board of Directors

Technology focused entrepreneurial board with successful exits to major global corporations.

Matt Barrie
Chief Executive Officer & Chairman

BE (Hons I) BSc (Hons I) GDipAppFin MAppFin MSEE (Stanford) GAICD SEP FIEAust
Matt Barrie is an award winning technology entrepreneur. Matt was Adjunct Associate Professor at the Department of Electrical and Information Engineering at the University of Sydney where he taught Cryptography for fifteen years and, later, Technology Venture Creation. He is the co-author of over 20 US patent applications. Previously he founded and was CEO of Sensory Networks Inc., a vendor of high performance network security processors which sold to Intel Corporation (NASDAQ:INTC).

Darren Williams
Non-Executive Director

BSc (Hons I) PhD (Computer Science) MAICD
Darren transitioned from Executive Director and Chief Technology Officer of Freelancer to Non-Executive Director in late 2015. In his time as an executive he was responsible day-to-day for strategic leadership of the company’s operating and technical direction. Darren has experience in computer security, protocols, networking and software. Prior to joining Freelancer, Darren was a co-founder of Sensory Networks, where he held the roles of Chief Technology Officer and subsequently Chief Executive Officer. In 2013 Sensory Networks sold to Intel Corporation (NASDAQ:INTC).

Simon Clausen
Non-Executive Director

Simon is a founding investor of Freelancer. Simon has more than 17 years experience in high growth technology businesses in both Australia and the United States. His technical expertise includes proficiency in multiple software development languages, computer security and vulnerability analysis, and he is co-author and inventor of a number of technology patents. Simon founded and was CEO of PC Tools, which he grew to over $100 million in revenue, more than 250 employees and offices in 7 countries. PC Tools was acquired by Symantec Corporation (NASDAQ:SYMC) in October 2008 in one of Australia’s largest ever technology acquisitions.
Senior Management Team

Specialists in growth, finance, operations, infrastructure, international execution, compliance and engineering

- **Neil Katz**
  - Chief Financial Officer
  - B Com (Hons) ACA
  - EPGC (Stanford)
  
  Neil Katz is the Chief Financial Officer at Freelancer and is responsible for the finance and administration functions of the Company. Neil has over 20 years experience in finance, accounting and general management. Neil has held CFO roles at a number of technology companies, including IPscape, Threatmetrix, Sensory Networks and Aptrix.

- **Peter Phillips**
  - Vice President, Engineering
  - BSc (Hons I) PhD
  - (Computer Science)
  
  Peter Phillips is Vice President of Engineering at Freelancer. In this role, he is responsible for leading the global engineering teams and defining and executing the company’s operating and technical direction. Peter has extensive experience in software engineering, scalable infrastructure and IT management.

- **Amir Massoudi**
  - Director, Growth
  - S.Eng, MSc
  - (Computer Science)
  
  Amir Massoudi is a Director of Growth at Freelancer. In this role, he oversees all revenue, product management, data science and customer operations. Amir holds a masters degree (by research) in Computer Science specialising in Machine Learning and Computer Vision from University of New South Wales.

- **Greg Robinson**
  - Vice President, Compliance
  - ACI, SA Fin
  
  Greg Robinson is the Vice President of Compliance at Freelancer. Greg oversees the overall compliance environment within the Company. In this role, Greg is responsible for the development and maintenance of the governance and compliance risk programs to support the business. Before joining Freelancer, Greg worked for PayPal Australia as Head of Compliance.

- **Sarah Tang**
  - Global Operations
  - MSc (Wien) MA
  - BCom (Queens)
  
  Sarah Tang is in charge of operations at Freelancer, across its global footprint. She leads a diverse range of teams across operations, support, talent and human resources. Sarah is a Millennium and Cansbridge Scholar with a double degree in Strategy & Innovation Management. Her thesis explored how face-reading software can be applied to user-driven product research by training it to measure human cognition, emotions and psychology.

- **Adam Byrnes**
  - Senior Director, International
  - BE (Electrical)
  - (Hons I) / BSc (Adv) (Physics)
  
  Adam Byrnes is responsible for expanding Freelancer across the world, particularly into markets that are dominated by non-english native speakers, such as Asia and Latin-America. He leads teams in public relations, content, marketing and translation, and has been responsible for launching Freelancer’s websites internationally, including 53 dedicated regional sites and 34 languages.

- **Sebastián Siseles**
  - Director, International
  - JD (University of Buenos Aires) / MBA
  - (University of Pittsburgh) / Marketing Diploma (FAECC, Argentina)
  
  Sebastián Siseles is responsible for creating, communicating, maintaining, and aligning the company’s international expansion strategy for long-term. An Argentine entrepreneur with an MBA from the University of Pittsburgh, Sebastián has a background in law specialising in corporate finance and M&A.
Outlook Statement 2018

Freelancer has a firm foundation for revenue growth in FY18 and a clear path to profitability

- FY17 was a challenging year and already FY18 is looking brighter after 1H18 results
  - For Freelancer.com, marketplace health is improving and growth is returning to trend. We are excited in particular about the build out of collaborative tools, usability improvements, mobile, performance, managed service, API and enterprise offerings.
  - For Escrow.com, 2Q18 was one of the best quarters ever for gross payment volume growth, we are highly optimistic about opportunities from the new Escrow.com API and ecosystem we are developing around this API.

- We plan to increase EBITDA to above breakeven in FY18

- Freelancer’s marketplace business is acyclical. The global financial crisis led to the original emergence of the online crowdsourcing and freelancing industries
  - Employers looked online to hire freelancers rather than full time staff
  - Workers looked to the Internet to find new sources of employment

- The potential for significant macroeconomic volatility provides further additional upside to Freelancer’s opportunities
Unique Investment Thematics

Freelancer Limited (ASX:FLN) is a unique exposure to:

- Massive market: $5 trillion TAM
- The on-demand and crowdsourced economy
- Increasing internet penetration of emerging markets
- Rising sophistication in emerging markets labour
- Software & mobile eating the world
- Structural imbalances in global labour markets
- Thrives in economic crises
- Incredibly deflationary
- Fintech & transition of global commerce to online (Escrow.com)
- Global Income (>95% of revenue is outside Australia: USD, GBP, EUR, CAD, etc.)
HOW BIG IS THE MARKET?
“160 million jobs, or about 11% of the projected 1.46 billion services jobs worldwide, could in theory be carried out remotely, barring any constraints in supply” *

Estimated demand for Web Design services (mid-high OECD)

Freelancer’s global web design revenue opportunity estimated as $2.7 billion per annum ($10.5b GPV)

- Freelancer’s estimated global web design revenue opportunity at c.$2.7 billion ($10.5b GPV).
- This is as a replacement of existing business only—there is also potential upside from opening up of new demand from lower cost labour services
  - e.g. for the first time, a café can get a website for c.$100
- Indicative calculation:
  - web design in the US alone is US$20 billion + industry
  - wages constitute US$12 billion of this
  - more than 50% of software engineering jobs can be outsourced at 30% of US wages
  - US$1.74 billion in wages outsourced @ 26% monetisation rate = c.A$620 million revenue opportunity for Freelancer in the US (Total Available Market)
  - there are 28 million small businesses in the US, but at least 96 million more in other mid-high income OECD countries
  - from this we estimate the global opportunity is (96+28)/28 = c.4.4x larger than the US market

3. Based on 28m SMEs in the US, 96m MSMEs outside the US in mid-high income OECD countries.
4. Based on AUD/USD exchange rate of 0.73.
Estimated demand from mid-high income OECD SMEs

Global small business revenue opportunity estimated as $38 billion per annum (602 million projects, $135 billion GPV)

- There are about 28 million small businesses in the US
  - 22 million of these are informal non-employers (yet generate >$1 trillion per annum in revenue)
- US job posters who posted more than one project posted on average 4.97 projects in 2016
- Average project size in FY16 was US$167, generating revenue of $47 to Freelancer (28.3% monetisation rate)
  - Implies A$8.6 billion TAM (A$30.4 billion GPV, 140 million projects) from US SMEs
- But there are 420 – 510 million micro, small and medium enterprises (MSMEs) globally
  - 96 million are formal employer MSMEs outside the US in mid-high income nations
    - Additional A$29 billion TAM (A$104 billion GPV, 480 million projects)

- Estimated global TAM from MSME market of c.$38 billion (A$135 billion GPV, 620 million projects)
- This excludes another 100m+ informal (unregistered) MSMEs in high income nations globally including non-employer firms, sole proprietors and partnerships which could add materially to Freelancer’s revenue opportunities

---

2. Based on Freelancer internal statistics. Average paid value of completed project was US$167 in FY16. Monetisation rate = $45.2m / 160m = 28.25%
3. McKinsey Global Institute, “Two trillion and counting: Assessing the credit gap for micro, small, and medium-size enterprises in the developing world” (October, 2010).
**Estimated demand from consumers**

Product marketplaces as proxy of consumer demand indicates TAM of US$106 billion (2b projects, US$390b GPV)

~400 million active consumers on average across eBay, Amazon and Alibaba

170 million active consumer buyers on eBay (sellers are SMEs)

Taking 170m buyers as consumer proxy

5 projects / user

US$193 / project

27.5% take rate

GPV of US$390 billion

Global Total Available Market (TAM)

US$106 billion (2b projects)

1 Actual year end 31 December 2017
2 Based on analyst estimates
3 Google Finance 31 December 2017
4 Trailing 12 months as at 30 June 2017, company disclosure
Estimated supply of professional labour in the developing world

370 million people, or 10% of the 3.7 billion working age population in the developing world have a tertiary qualification

- 2010 global working age population: 3.7 billion, labour force: 2.9 billion
- 2030 predicted global labour force: 3.5 billion
- Of the 3.7 billion working age in the developing world in 2010:
  - 1.7 billion (46%) have a secondary education
  - 370 million (10%) have a tertiary education
- In the Philippines, tertiary education rose from 9% to 22% (13m) 1980-2010
  - Brazil, China, India @ 7 to 9%, yet produce c.5m STEM grads per annum

- There are 220 million people with a tertiary degree between India, China, Brazil, Philippines, Malaysia, Indonesia, Egypt, Sri Lanka and Nigeria
- c.5 billion people to join the Internet over next decade that earn <$10/day
- They have very little assets however are educated and can sell their services
- Freelancer.com is the first stop on the Internet for these people to raise their wages from $10/day to $10/hour +

Educational attainment (2010)
% working age population; million people

1. McKinsey Global Institute: The World at Work: Jobs, Pay and Skills for 3.5 Billion People (June 2012)
3. Accenture Institute for High Performance: Where will all the STEM talent come from? (May 2012)
Estimated demand from Local Jobs in the US

Freelancer’s expansion into 100 categories of Local Jobs expands the total addressable market by up to $800 billion

- Online services is already a huge market, with enormous future potential
  - McKinsey Global Institute has estimated that “160 million jobs, or about 11% of the projected 1.46 billion services jobs worldwide, could in theory be carried out remotely, barring any constraints in supply”

- In the US alone, the temporary labour market is estimated to be in the order of $100 billion
  - MBO Partners also found that in 2013 in the US there were 17.7 million independent workers
  - these generated $1.2 trillion in total income per annum
  - Angie’s List estimates the home services industry, which includes electricians, plumbers, dog walkers and other manual labour, alone is worth $400 billion per annum
  - others put it at $800 billion per annum

This presentation has been prepared by Freelancer Limited (ACN 141 959 042) (Freelancer or the Company). The information contained in this presentation is current at the date of this presentation. The information is a summary overview of the current activities of the Company and does not purport to be all inclusive or to contain all the information that a prospective investor may require in evaluating a possible investment. This presentation is for general information purposes and is not intended to be and does not constitute a prospectus, product disclosure statement, pathfinder document or other disclosure document for the purposes of the Corporations Act 2001 (Cth) (Corporations Act) and has not been, and is not required to be, lodged with the Australian Securities & Investments Commission. The material contained in this presentation is not, and should not be considered as, financial product or investment advice. This presentation is not (and nothing in it should be construed as) an offer, invitation, solicitation or recommendation with respect to the subscription for, purchase or sale of any security in any jurisdiction, and neither this document nor anything in it shall form the basis of any contract or commitment. This presentation is not intended to be relied upon as advice to investors or potential investors and does not take into account the investment objectives, financial situation or needs of any particular investor which need to be considered, with or without professional advice, when deciding whether or not an investment is appropriate.

This presentation contains information as to past performance of the Company. Such information is given for illustrative purposes only, and is not – and should not be relied upon as – an indication of future performance of the Company. The historical information in this presentation is, or is based upon, information contained in previous announcements made by the Company to the market.

Forward looking statements
This document contains certain 'forward-looking statements'. The words "anticipate", "believe", "expect", "project", "forecast", "estimate", "outlook", "upside", "likely", "intend", "should", "could", "may", "target", "plan" and other similar expressions are intended to identify forward-looking statements. Indications of, and guidance on, future earnings and financial position and performance, including Freelancer’s FY18 outlook, are also forward-looking statements, as are statements regarding Freelancer's plans and strategies and the development of the market.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors, many of which are beyond the control of Freelancer, which may cause actual results to differ materially from those expressed or implied in such statements.

Freelancer cannot give any assurance or guarantee that the assumptions upon which management based its forward-looking statements will prove to be correct or exhaustive beyond the date of its making, or that Freelancer’s business and operations will not be affected by other factors not currently foreseeable by management or beyond its control. Such forward-looking statements only speak as at the date of this announcement and Freelancer assumes no obligation to update such information. The release, publication or distribution of this presentation in jurisdictions outside Australia may be restricted by law. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

Non-IFRS information
This presentation includes certain financial measures that are not recognised under Australian Accounting Standards (AAS) or International Financial Reporting Standards (IFRS). Such non-IFRS financial measures do not have a standardised meaning prescribed by AAS or IFRS and may not be comparable to similarly titled measures presented by other entities, and should not be construed as an alternative to other financial measures determined in accordance with AAS or IFRS. The information is presented to assist in making appropriate comparisons with prior periods and to assess the operating performance of the business. Freelancer uses these measures to assess the performance of the business and believes that information is useful to investors. Gross Payment Volume, EBITDA, and EBIT have not been audited or reviewed. Recipients are cautioned not to place undue reliance on any non-IFRS financial measures included in this presentation.
