Freelancer Enterprise 1H19 update

MSAs signed in 1H19 with major technology, professional services and healthcare brands

- In 1H19 we have signed MSAs with major brands in the technology, professional services, defense and healthcare industries
- About to commence multi-country pilots with global leaders in the cloud, software, computer and telecommunications industries
- We continued to build out the sales team globally
- Hired an executive from Uber’s Greenlight driver (freelancer) onboarding division to run enterprise operations
- We additionally shipped a major code drop for a customer that has not been made public yet
- $2.6 million in enterprise services revenue generated
- Ran enterprise bootcamp workshop with global sales team
- 40% of engineering is on enterprise
Outlook Statement 2019

1H19 has seen opportunity & growth in both the Freelancer and Escrow segments

- For Freelancer.com:
  - In 1H19 Freelancer.com hit an all-time record for Net Revenue of $24.8m (up 17% on pcp) and all-time record for Gross Payment Volume of $92 million (up 11% on pcp).
  - To the downside from April we were negatively affected by an internal deadline to move certain California payments to Escrow.com which resulted in premature deployment of webapp & lack of mobile support. This is currently being addressed by the engineering team.
  - To the upside, enterprise revenue is growing strongly and we are in the process of deploying major paid projects with signed enterprise customers as we speak. We have also dedicated significant resources to building this division out.
  - In 1H19 we signed MSAs with major brands in the technology, professional services, defense and healthcare industries. None of these MSAs had minimum volume commitments.
  - In Q3 we enter into large scale pilots with globally significant customers. We hope to be able to announce more details soon.
  - The pipeline is dominated by globally significant Fortune 500 or equivalent organisations.
  - We are coming out of the work to improve the front-end and excited about the build out of collaborative tools, usability improvements, mobile, performance, managed service, API and enterprise offerings in coming quarters.
Outlook Statement 2019

1H19 has seen opportunity & growth in both the Freelancer and Escrow segments

● For Escrow.com:
  - 1H19 GPV of $308 million (up 10% on pcp). On a pcp basis the GPV in 2Q19 cycled 2Q18 which exhibited extraordinary growth on 2Q17(up 42% on pcp).
  - We are highly optimistic about partner opportunities in our API ecosystem.
  - In 2Q19 we signed and are in the process of deploying into a major North American automotive marketplace that is #1 in its category. We will be announcing on the go-live date in the second half of this year. There is no minimum volume commitment for this customer.
  - Other signed customers in 1H19 included, but was not limited to an export & freight marketplace, a truck marketplace, two more motor vehicle marketplaces including BestCarFinder, an IPv4 address marketplace, a real estate talent marketplace, a food sourcing marketplace, a sales leads marketplace, a domain marketplace & a fashion marketplace.
  - The pipeline also has a number of customers of scale that we are progressing well with including a second major automotive marketplace.

● For the Group 1H19 delivered:
  - Operating NPBT $0.6m, operating NPAT $0.4m
  - Positive operating cash flow $1.0m and a maiden first half profit of NPAT $0.2m
  - Cash & cash equivalents increased by 9% to $34.4 million versus 30 Jun 18

Freelancer Limited (ASX:FLN) is a unique exposure to:

- Massive market: $5 trillion TAM
- The on-demand and crowdsourced economy
- Increasing internet penetration of emerging markets
- Rising sophistication in emerging markets labour
- Software & mobile eating the world
- Structural imbalances in global labour markets
- Thrives in economic crises. The global financial crisis led to the original emergence of the online crowdsourcing and freelancing industries:
  - Employers looked online to hire freelancers rather than full time staff
  - Workers looked to the Internet to find new sources of employment
- Incredibly deflationary
- Fintech & transition of global commerce to online (Escrow.com)
- Global Income (>95% of revenue is outside Australia: USD, GBP, EUR, CAD, etc.)
Freelancer.com is changing the global dynamics in the marketplace for people.

We push the boundaries of human innovation

The NASA Tournament Lab and Freelancer have teamed up to help crowdsource solutions to the most complex problems being faced by astronauts on the cutting edge of space exploration.

http://www.freelancer.com/contest/nasa

CoECl’s innovative, streamlined process with the P-Card enabled quality and fast work turnaround with extraordinary cost-savings (80% - 99%) when compared to traditional methods. Furthermore, NASA implemented a majority of the solutions (97%) across a wide range of its federal space programs. By matching needs with skills on-demand in areas where NASA teams did not have the expertise or resources available, crowds delivered high quality and creative work. Not to mention, challenges have become a vehicle for NASA to engage with the public and vice versa.

HOW BIG IS THE MARKET?
“160 million jobs, or about 11% of the projected 1.46 billion services jobs worldwide, could in theory be carried out remotely, barring any constraints in supply” *

Estimated demand for Web Design services (mid-high OECD)

Freelancer’s global web design revenue opportunity estimated as $2.7 billion per annum ($10.5b GPV)

- Freelancer’s estimated global web design revenue opportunity at c.$2.7 billion ($10.5b GPV).

- This is as a replacement of existing business only- there is also potential upside from opening up of new demand from lower cost labour services
  - e.g. for the first time, a café can get a website for c.$100

- Indicative calculation:
  - web design in the US alone is US$20 billion + industry
  - wages constitute US$12 billion of this
  - more than 50% of software engineering jobs can be outsourced at 30% of US wages
  - US$1.74 billion in wages outsourced @ 26% monetisation rate = c.A$620 million revenue opportunity for Freelancer in the US (Total Available Market)
  - there are 28 million small businesses in the US, but at least 96 million more in other mid-high income OECD countries
  - from this we estimate the global opportunity is (96+28)/28 = c.4.4x larger than the US market

---

3. Based on 28m SMEs in the US, 96m MSMEs outside the US in mid-high income OECD countries.
4. Based on AUD/USD exchange rate of 0.73.
Estimated demand from mid-high income OECD SMEs

Global small business revenue opportunity estimated as $48 billion per annum (620 million projects, $181 billion GPV)

- There are about 28 million small businesses in the US
  - 22 million of these are informal non-employers (yet generate >$1 trillion per annum in revenue)\(^1\)
- US job posters who posted more than one project posted on average 4.97 projects in 2016\(^2\)
- Average project size in FY18 was US$205, generating revenue of $54 to Freelancer (26.3% monetisation rate)\(^2\)
  - Implies A$10.8 billion TAM (A$41 billion GPV, 140 million projects) from US SMEs
- But there are 420 – 510 million micro, small and medium enterprises (MSMEs) globally\(^3\)
  - 96 million are formal employer MSMEs outside the US in mid-high income nations\(^4\)
    - Additional A$37 billion TAM (A$140 billion GPV, 480 million projects)

- Estimated global TAM from MSME market of c.$48 billion (A$181 billion GPV, 620 million projects)
- This excludes another 100m+ informal (unregistered) MSMEs in high income nations globally including non-employer firms, sole proprietors and partnerships which could add materially to Freelancer’s revenue opportunities

2. Based on Freelancer internal statistics. Average paid value of completed project was US$167 in FY16. Monetisation rate = $45.2m / 160m = 28.25%
3. McKinsey Global Institute, “Two trillion and counting: Assessing the credit gap for micro, small, and medium-size enterprises in the developing world” (October, 2010).
Estimated demand from consumers

Product marketplaces as proxy of consumer demand indicates TAM of US$108 billion (2b projects, US$410b GPV)

Estimated demand from Local Jobs in the US

Freelancer’s expansion into 100 categories of Local Jobs expands the total addressable market by up to $800 billion

- Online services is already a huge market, with enormous future potential
  - McKinsey Global Institute has estimated that “160 million jobs, or about 11% of the projected 1.46 billion services jobs worldwide, could in theory be carried out remotely, barring any constraints in supply”

- In the US alone, the temporary labour market is estimated to be in the order of $100 billion
  - MBO Partners also found that in 2013 in the US there were 17.7 million independent workers
  - these generated $1.2 trillion in total income per annum
  - Angie’s List estimates the home services industry, which includes electricians, plumbers, dog walkers and other manual labour, alone is worth $400 billion per annum
  - others put it at $800 billion per annum
